To The Trade

January, 1914

SEASON 1914 In presenting our **Wholesale Price List for Season 1914** we are pleased to advise that in most varieties in Garden Seeds, Field Beets and Mangels, the harvest has yielded better than for the past three seasons, in consequence values are correspondingly lower.

A few staple varieties and kinds are again very short in yield and reliable supplies difficult to obtain even at advanced prices.

PRICES All quotations herein are the prices ruling at the date of this list, and which are subject to change without notice. Where supplies are short it may be impossible to send full quantities ordered, but shall send all that is possible under existing conditions. We do not guarantee quantity.

SHIPMENT and PACKING Our prices are for delivery ex-warehouse, any claims for damage or delay, while in transit, must be made by the buyer against the carriers. All orders will be carefully prepared for safe shipment, bags and cases necessary for safe packing and transportation will be charged at value, *they are not returnable nor will they be allowed for*; they must be considered a necessary part of the purchase, not provided for in the price of the article they contain.

MAILING SEEDS Seeds will be sent by mail when requested, or when the cost for carriage by mail is less than by other transportation, and at the purchaser's risk. When forwarded by mail FIVE CENTS PER POUND will be charged for the prepayment of postage and extra cost for packing. Should Parcel Post come into operation, the Postal charge will be in accordance therewith.

TERMS of PAYMENT All seeds herein quoted (unless otherwise noted) are due and payable "Net Cash" June 1st, 1914, without regard to date of purchase, or a cash discount of one per cent. per month on the unexpired time for credit when paid before June 1st. Clovers, Timothy, Grasses, Seed Grain, Feeding Stuffs, Onion Sets, etc., noted "Cash" or "Market Price" are payable "Net Spot Cash" and subject to sight draft on shipment. Where there is no bank or express office, through which a draft can be made, prompt cash remittance is requested, on receipt of invoice. All remittances must be for *net amount due*, at par in Toronto. NO DEDUCTION ALLOWED FOR THE COST OF REMITTING PAYMENT. Overdue accounts must be paid prior to shipping further orders.

All supplies ordered or shipped from our Hamilton House are payable at our Head Office, Toronto.

Any claims for allowance, errors or credits, must be made within ten days after arrival of goods, otherwise they will not be considered. Cash or satisfactory city reference should accompany orders from unknown correspondents.

ORDERS in HAND The within prices will be charged on orders which have been kindly entrusted to us, and which are as low as quality and present season's cost and conditions will permit. Many items are priced at less than current values at source of production. When unable to supply the quantity ordered of any variety, we shall send as much as our supply will permit, and where an item is not obtainable, we may substitute an equal or better variety than that ordered, if in stock, that our customer may not be disappointed. We trust all will bear with us through these most trying and disappointing seasons.

We wish our many friends a prosperous season's trade

STEELE, BRIGGS SEED CO'S

LIMITED

WHOLESALE TRADE PRICE LIST FOR 1914

Ex-Warehouse Toronto or Hamilton

This Price List Cancels all Previous Quotations

Conditions of Sale STEELE, BRIGGS SEED CO., Limited, wish it to be distinctly understood that they give no warranty, express or implied, as to description, quality, productiveness, growth, or any other matter connected with any seeds (or bulbs, plants and shrubs), they send out, and they will not be in any way responsible for the crop. Every order received will be executed on these conditions only, and without engagement as to quantity where crop failure reduces expected supply.

A Telegraph Cypher is attached to each article, thereby enabling orders by wire to be sent at comparatively little expense. **Not to be used when ordering by mail.** For example:—

Ten Flap means Ten Pounds Long Blood Beet, or
Fifty Vang means Fifty Pounds Mammoth Red Mangel.

The charge for ounce quantities, where not specially quoted, will be one-tenth of the pound price; 2 ozs. for one-sixth pound price; 3 ozs. for one-fifth pound price; 1/4 lb. at pound rates; 20 lbs. at 100 lb. rates.

(Prices subject to change without notice.)

Onion Sets

We shall be pleased to quote prices when season arrives, if stocks are obtainable, on Tops, Shallots or small Multipliers, Large English Multipliers and Yellow Dutch Sets.

Onion Sets by Measure.—The article of onion sets has no fixed or uniform weight for a bushel—for the reason that they constantly decrease in weight from the time they are harvested until planted, at the same time the bulk quantity varies but little. We have formerly quoted and supplied sets only by the measured bushel, containing 32 quarts, but with no uniform weight for a bushel. Many dealers in sets perfer handling by weight, we shall therefore quote sets by weight, and if bushel price is desired, the weight of a bushel shall be 32 lbs.—which is the uniform basis for a bushel in the United States.

Shipping.—Sets are perishable and liable to heat and sprout while in transit, if delayed on the way, or when the distance is long, which is the buyer's risk, not the shipper's.

We advise shipment by express, and when thus sent they will be put up in jute bags, but when sent by freight they should be enclosed in crates or barrels to prevent damage. Sets are carried at "special produce rates" by express.

When no instructions accompany the order regarding shipment we shall forward them as we consider safest for the buyer.

Packages.—Quotations do not include the package in which sets are sent; the charge for such will be, for 1 bushel crate, 20c.; for 2 bushel crate, 30c.; barrels, 30c.; jute bags, 10c. No charge for jute bags when full.

Terms.—Onion Sets of all kinds are "Net Cash" for face amount of invoice, and subject to sight draft, otherwise prompt remittance.

Quality.—Our sets hold a high reputation for quality, and are *superior to the ordinary stocks offered.*

We are buyers of all varieties of Onions and sets for planting, and shall be pleased to hear from parties having any to sell.

SWEET PEAS

Our named varieties of Sweet Peas, as represented in the following list, include the most desirable sorts, combining large bloom, long stems, distinct colors and shading, and exquisite beauty. We have arranged them in groups of colors to better assist in making desirable selections. Owing to scarcity in most varieties, through crop failure, we can only fill orders while our stock holds out.

Earliest Flowering Types

A selection of Sweet Peas that bloom very early, and are particularly adapted for forcing in the greenhouse.

Cupid Sweet Peas

A race of Sweet Peas remarkable for their dwarf spreading habit; the stems are usually short, the blossoms large and usually three to a stem. Cupids are quite effective as bedding plants, and make excellent, showy borders.

IMPORTANT.—The genuine "Steele, Briggs' Royal Giant" Sugar Beet is what the growers want. *It is supplied only in packages as represented in cut.* Merchants who sell Field Root Seeds, require a supply of "Steele, Briggs' Royal Giant." Don't be induced to buy *imitations* or what is "just as good."

There is no finer Root Crop to grow, where quantity and quality are desired, either in Beet or Mangel, than Steele, Briggs' "Royal Giant" Sugar Beet.

Steele, Briggs' "Giant White Sugar Mangel" is another very heavy cropping variety, and very much in demand.

This distinct type of Sugar Beet grows heavy crops, large even-shaped roots which stand upright, and three-fourths of their length out of ground, and so easily harvested that they may be turned out of ground by a push with the foot. Their color is a bronzy green nearest the top, body of root lighter green, shaded and changing to a bright rose above ground, the tip a light shade of rose; flesh white, solid, sweet and tender.

The Heaviest Cropping Sugar Beet Known

It should be grown by every feeder of milk cows, because it increases the quantity and quality of milk, and imparts a rich, pleasant flavor to dairy products.

Seed packed in Cases containing 30 and 48 pounds each.

AGRICULTURAL SEEDS

Our special strains of Field Root Seeds, which we supply in *Packages only*, are in constantly increasing demand, and as a protection to the grower, and a convenience to the dealer, we have extended our list of Packaged varieties, which now include the very finest selections known in Sugar Beet, Carrot, Mangel and Swede Turnips. Varieties thus supplied are printed in *black faced type*. Merchants desiring to extend their trade can do so by carrying a supply of these "Thoroughbred" strains. They are packed and shipped in cases. Sugar Beet and Mangel contains 30 or 48 lbs. each; Carrot, 24 lb.; Swede Turnips, 30, 50 or 100 lbs. in case. Cases free when ordered in full case lots of *any one variety*.

NOTE—20 lbs. or more of any one variety will be charged at 100 lbs. rates.

Where our specialties are quoted in ½ lb. and 1 lb. "assorted" we include a proportionate quantity in ½ lb. size, but where ½ lbs. are specially ordered *two cents per lb.* will be added to printed rates.

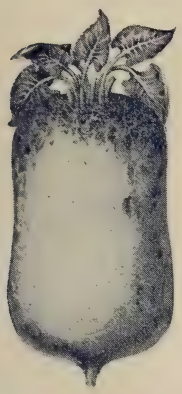
Steele, Briggs'

"THOROUGHBRED QUALITY"
YIELDS INCREASED PRODUCT

The old time varieties of Swede Turnips are being fast replaced with our newer introductions and strains, these grow bigger crops and of Superior Quality. The increased cost in selecting and growing necessitates higher prices. They repay many times the outlay to the grower. Merchants must consider this fact and supply what will give the planter the best returns for his money and labor.



Something New

IDEAL MANGEL

A new and improved strain of Yellow Mangel that should be given a trial in all root growing sections.

The roots cylindric in shape, very large, full and heavy at shoulder with similar size and shape at the bottom end, terminating bluntly with a small tap root; its circumference at the middle is a trifle less than at the ends; grows well above ground, and adapted to heavy soils; a great cropper and easily harvested.

The skin is yellow; flesh white; sweet and rich in food value. See page 17 for price.

Steele, Briggs' "Durham" Swede Turnip

The name "Durham" is applied to a breed of cattle, calling to your mind an animal of large size, beautiful form and of handsome appearance—which also describes this new Swede.

In our Field Trials, with many other varieties of similar Color, including the well known Hartleys, Lord Derby, Gatacre and others, the "Durham" proved a much superior strain and the heaviest cropper of the many sorts tried, producing large, round, clean roots, very uniform in size and of a purplish bronze color above ground, yellow beneath; the flesh is yellow, firm, juicy and sweet—a fine shipping sort and a good winter keeper. (Supplied in ½ lb. and 1 lb. sealed packages only). See page 19 for price. *Supply limited.*

Current Cash Quotations

We issue from time to time, a list of Seeds on which prices are governed by **Market Fluctuations,** such as **Clovers, Timothy, Grasses, Seed Grain, Feeding Stuffs,** etc. These prices are always based on **Current Market Values** and for **"Spot Cash"** payment.

Brands and Grades—We quote and supply our Grades and Qualities of Clovers and Timothy Seed under separate and distinct "Brand" names and endeavor, throughout the season, to maintain the same standards of quality for each "Brand" as closely as available supplies will permit.

Our brand **"Lion"** stands for the very highest quality and purity that can be supplied, and with all brands of Clovers and Timothy Seed, in addition to the brand name we label or stencil each full bag with the Government quality Grade (as No. 1, 2 or 3) and also the Purity test number, as registered with the Department at Ottawa, and each bag carries our lead seal.

Merchants, when buying and handling our branded supplies, have the most absolute assurance of handling Government Standard supplies and which will stand inspection.

Prices—Our prices at all times are as low as current market values will permit, consistent with the high quality and purity which our brands represent.

Warning—Bags that are received with Clovers, Timothy or other seeds when Branded and which show the Government Grade and registered Purity numbers thereon, when becoming emptied of their original contents, must not be used for the holding of any like varieties of seed unless such Brands and numbers have been obliterated.

We shall be pleased to hear from buyers when wishing to procure Supplies or if they have anything in seeds to offer.

Seed Corn

We are **Headquarters** for **Seed Corn,** and carry, in season, a large assortment of Field and Ensilage Corn.

Shall be glad to receive your valued orders.

THE "NEW HOME" OF THE "OLD HOUSE."

LOCATED AT CORNER SPADINA AVE. AND CLARENCE SQUARE. NEXT TO FRONT ST.
REMOVED FROM CORNER FRONT AND JARVIS STREET

COME AND SEE US

A cordial invitation is extended to our many friends, when in Toronto, to call and inspect our new premises. The most modern and commodious in the Canadian trade. The above cut is from a photo of the building.

HOW TO REACH IT

From the Union Station take a "Bathurst" Street car running west on Front Street to Spadina Avenue. Only 50 yards from the car stop. From down town take any "King" or "Belt Line" car west to Spadina Avenue. Our location is about 150 yards South from King Street and opposite Clarence Park.

Our Retail Store remains at the Old Stand, 137 King Street East.
